- Monarch label
- Horizontal flag stitched handles with embroidered EPOC logo on foot end
- Nickel vents
- 2500gsm Rebound Poly Cotton
- 1500gsm PPNW Silk
- Topaz insulator

CUSTOMERS OWN MATERIAL

Divan bases and headboards can be upholstered in our standard range of fabric options available upon request - or supply your own for a truly unique finish - subject to suitable abrasion tests and compliance with Fire Retardancy regulations. A fire retardancy/treatment certificate will be required to accompany the fabric prior to manufacturing.

ZIP & LINK / VELCRO® & LINK

To offer flexibility in terms of rooms, the mattresses can be zipped and linked together to turn a twin room into a double, or vice versa. As an alternative to zip & link, we also offer Velcro® and link.

SPLIT BASES

We advise that deep base double divans will be manufactured in two halves for ease of access. Bases can be split North-to-South or East-to-West. Please inform us at time of order of any split and your direction of preference. North to south is usually the standard split direction.

FIRE RETARDANCY

This mattress and base (where applicable) is fully compliant with BS 7177 (Medium Hazard) Crib 5 Fire Retardancy standards for hotel and contract use.

BESPOKE SIZES

All mattresses and divans are manufactured to metric measurements unless otherwise requested. Bespoke, made-to-measure sizes are also available upon request. Note that the above measurements are subject to a tolerance of \pm 20mm. Orders can be placed in either metric or Imperial measurements.

FOOT OPTIONS

Customers can apply their own choice of foot options to their bed. We have a selection of Shepherd or ball castors, glides or feet available (or a combination of both). Customers own choice of foot design can also be provided prior to manufacturing to provide a unique level of customisation.

DRAWER OPTIONS

EPOC Handcrafted Beds offer a range of drawer options to complement our divan base options - with 1-drawer, 2-drawer, 3-drawer, continental drawer, large side, end drawer or slider options. All of our drawers have dovetail joints as standard and can be fitted with soft-close runners.

ENVIRONMENTALLY SUSTAINABLE

As part of our ongoing commitment to environmentally sustainable manufacturing, we ensure responsible sourcing of materials and endeavour to ensure that no waste goes to landfill.
